

Maneuver

Joint Network Management System (JNMS)

Description

The JNMS provides communication planners and managers with a Joint service, interoperable tool to conduct high level planning (war planning); detailed planning and engineering; monitoring; control and reconfiguration; spectrum planning and management; and, security of systems and networks supporting Joint operations.

Operational Impact

JNMS will provide the Commander In Chief (CINC), Commander Joint Task Force (CJTF) and Service Component headquarters with an interoperable network planning and management system to establish and operate a Joint Task Force (JTF). The Marine Corps will field JNMS to the active Marine Expeditionary Forces (MEFs) supporting CINC and JTF headquarters, Reserve Forces, and Supporting Establishments including the Military Occupational Specialty (MOS) producing schools. The MEFs currently support this mission with an interim and limited JNMS solution.

Program Status

Initial Operational Capability is scheduled for FY03. Development and production (support) award is anticipated in FY01.
